Re: KWHN(AM), Fort Smith, Arkansas  
Facility Identification Number: 22099  
Capstar TX Limited Partnership  
Special Temporary Authorization

Dear Mr. Langham:

This is in reference to the request filed April 22, 2010, on behalf of Capstar TX Limited Partnership ("Capstar"). Capstar requests further extension of the special temporary authority ("STA") granted on July 21, 2009, to operate Station KWHN during nighttime hours with parameters at variance and/or reduced power while maintaining monitor points within licensed limits.<sup>1</sup> In support of the request, Capstar states that renovation of the antenna system; however, a sampling line appears to have failed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

---

<sup>1</sup> KWHN is licensed for operation on 1320 kHz with 5 kilowatts, unlimited hours, employing a directional antenna during nighttime hours only (DA-N-U).

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KWHN may continue to operate during nighttime hours with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. Capstar must notify the Commission when licensed operation is restored.<sup>2</sup> Capstar must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 27, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a stylized flourish at the end.

Charles N. Miller, Engineer  
Audio Division  
Media Bureau

cc: Capstar TX Limited Partnership
